Projects

- **Weather-API:**

A Weather Web app which fetches real time weather of a particular city using API. I used Reactjs framework for this task and hosted it on github pages using git command line.

Link:- <https://08mishra.github.io/weatherapi/>

- **News-API:-**

A news API app which fetch news from an API by using JavaScript and reactjs framework.

Link:- <https://08mishra.github.io/newswindow/>

- **Music Player:-**

A simple music player app by using JavaScript, html and CSS. This project enhance different built in JavaScript functions as well as gave practice on Objects and Arrays.

Link:- <https://08mishramusicapp.netlify.app/>

- **JavaScript Clock:-**

A beginner level project for enhancing JavaScript functions.

Link:- <https://08mishrajavascriptclock.netlify.app/>

- **Frontend-Mentor Challenge:-**

I also participated in challenge provided by website called frontend-mentor as it enhances your front end skills. I till now completed their seven challenges. You can check those by visiting :- <https://www.frontendmentor.io/profile/08mishra>

Experience

- **Web Developer Inter at Fodrix**

I was a Web Developer intern at Fodrix for 3 Months. My task was to create Front end part of their website. I used React framework to complete this task. My credentials can be checked by visiting:- https://fodrix.com/about_us
